- Carmen-Silva Sergiou, Amsterdam UMC

## Topics

- Technology Use in the Criminal Justice Setting for Assessment and Treatment
- Challenges and Clinical Needs for Innovation
- Ethical Considerations
- Roadmap for Future Research
- Special Issue "Bringing Technology to Justice Involved Youth"

The Lorentz Center organizes international workshops for researchers in all scientific disciplines. Its aim is to create an atmosphere that fosters collaborative work, discussions and interactions. For registration see: [www.lorentzcenter.nl](http://www.lorentzcenter.nl)

This workshop is part of our collaboration with NIAS and aims to stimulate research in the humanities & social sciences.

The lines and dots represent the technology that could have a useful application for youth in the criminal context, portrayed through the heads and justice related attributes. Poster design: SuperNova Studios . NL
